The 2006 NIWA Annual Report is printed on paper produced using the ECF (Elemental Chlorine Free) process at an ISO 14001 accredited mill from timber harvested from sustainably managed forests. The printer uses soya-based inks and recycles ink cartridges, waste paper, aluminium plates, and used cartons. Waste chemicals are collected and destroyed by a certified company.

Regional Offices

Auckland

Manager: Ken Becker
k.becker@niwa.co.nz
